Re: MS#21-227R1, "The Evolution of Cambodian Current Account: A Dynamic General Equilibrium Analysis"

Dear Professor Pan:

Thank you for sending us a revision. I have read the revision myself. I am satisfied with your response to the referees. I am therefore pleased to accept the paper for publication in the *JMCB*. I plan to publish it in the shorter paper section of the journal.

Please separate the appendix from the paper. Label it online appendix and make proper references to it in the text. Send the online appendix to us together with the final copy of the paper. We will post it on the journal website for interested readers.

Congratulation on writing an interesting paper. I look forward to seeing it in print, and I hope it will receive the attention it deserves.

Sincerely,

Pok-sang Lam  
Editor
